EDUCATION

MASTERS | Edge Hill University 2021
Software App Development (2:1) ^ 2017

YEAR 1

- ✓ Computer Architecture & Networks.
- ✓ Computer Science.
- ✓ Concepts to Construction 1.
- ✓ Concepts to Construction 2.
- ✓ Information System & Design.

YEAR 2

- ✓ Databases.
- ✓ Employability.
- ✓ Mobile Applications.
- ✓ Object Oriented Programming.
- ✓ Software Engineering.
- ✓ Software Quality Assurance.

YEAR 3

- ✓ Advanced Databases.
- ✓ Complex Systems.
- ✓ Distributed Systems.
- ✓ Embedded Systems.
- ✓ Intelligent Systems.
- ✓ Interface Programming.

YEAR 4

- ✓ Constructs & Data Structures.
- ✓ Logical & Functional Programming.
- ✓ Research & Development.
- ✓ Research Methods.

SUMMARY

I am a passionate **Full-Stack Software Developer** with a strong foundation in JavaScript, TypeScript, Vue, Node, C#, ASP.NET Core, OpenLayers, geospatial technologies, cloud development, and DevOps. Before joining Cadcorp, I was developing personal websites for friends using React and Redux, and GraphQL. Since then, I have become an expert in Vue. I excel at building scalable solutions for complex applications, including mapping. I am committed to continuous learning and have enhanced my skills through Udemy, LinkedIn courses, and hands-on GitHub projects. My experience in agile development, database migrations, and API integrations allows me to deliver high-performance solutions. Currently seeking opportunities to expand my expertise.

EXPERIENCE

CADCORP | Full-Stack Software Developer 2022 > Present
Geospatial Software Developer

- ✓ Develop and maintain WebMap (**WM**) using JavaScript, TypeScript, Vue, Node, ASP.NET Core, EFCore and T-SQL. **WM** is a SaaS application used for geospatial data analysis and management, making use of cloud technologies, such as Azure and AWS.
- ✓ Implemented & optimized key SIS extensions, including what3words, Call for Sites (land site proposal via forms, geometry, and pdf transformation), Fire Query (map querying for fire services), IBIS Search. All enhancing geospatial search, analysis, and capabilities and monitoring.
- ✓ Extended the already integrated Microsoft Power BI, into **WM**, enabling clients to visualize geospatial data with interactive dashboards for analysis.
- ✓ Resolved over 1000+ Jira tickets related to feature enhancement and bug fixes, improving application performance, reliability and robustness
- ✓ Collaborate with developers and stakeholders in Agile sprints through teams, to enhance SIS functionality.
- ✓ Creation of documentation for integrating internal and external/bespoke extensions into SIS **WM**.

EDGE HILL UNIVERSITY | Game Developer July > Sept
Individual project with supervision. 2020 2020

- ✓ Developed a small shooter game for a Computer Augmented Virtual Environment (CAVE), using Java and Unity3D.
- ✓ Gathered insight into the UI design process from the supervisor, to address Human Information Processing (HIP) and ease-of-use.
- ✓ Analysed the games internal mechanisms, by using white box testing in accordance with the quality coding standards, following a software unit test template.

EDGE HILL UNIVERSITY | Robotics Programmer June > July
Individual project with supervision. 2019 2019

- ✓ Discussed several versions of the project, from using OpenCV and Android Studio for mobile integrations, to Google APIs speech recognition and word dictionary.

BTEC Peterborough College Software Development - (D*DD)	2017 2015	✓ Produced a python program using PyCharm, which used Google’s speech recognition API, to initiate a conversation with NAO robot. ✓ Presented a walk-through of the project, on behalf of Edge Hill Universities Computer Science Department, and in front of the CEO. SKILLS Programming Languages ✓ Javascript ✓ Python ✓ T-SQL ✓ Typescript ✓ SQL ✓ C# ✓ NoSQL Frameworks & Libraries ✓ Vue.js ✓ Open Layers ✓ Webpack ✓ Vite ✓ Rollup ✓ Vuei18n ✓ .NET Core ✓ .NET MVC ✓ Node.js ✓ Nuxt.js ✓ Iron PDF ✓ Dapper ✓ React.js ✓ Pinia ✓ Vuex ✓ Vuetify ✓ Vue-Router Package Managers ✓ Npm ✓ Yarn ✓ PnPm Databases & Caching ✓ SQL Server ✓ EFCore ✓ PostgreSQL ✓ Firebase ✓ Oracle ✓ Redis Browser Storage ✓ IndexedDB ✓ Local Storage ✓ Session Storage Version Control ✓ Git ✓ Fork ✓ SVN ✓ SourceTree ✓ GitHub Cloud & DevOps ✓ Docker ✓ CI/CD Pipelines ✓ Azure ✓ AWS Testing & Debugging ✓ Jest ✓ NUnit ✓ Postman Software & Tools ✓ Visual Studio Professional ✓ Power BI (Embedded) ✓ Visual Studio Code ✓ Jira ✓ Confluence ✓ SQL Management Studio ✓ Trello
YEAR 1 ✓ Computer Systems. ✓ Enterprise. ✓ Event Driven Programming. ✓ Game Design. ✓ Graphics Design. ✓ Software Design. ✓ System Analysis. ✓ Website Design. ✓ English. YEAR 2 ✓ 3D Modelling. ✓ Computer System Architecture. ✓ Controlling Systems with IT. ✓ Databases. ✓ Game Development. ✓ Information Systems. ✓ Object Oriented Programming. ✓ Project Planning with IT. ✓ Client- and server-side scripting. GCSE Sir Harry Smith Gcse’s - (7) 2013 2008 English Maths Science Business Food Technology Internet Technology Physical Education INTERESTS & ACTIVITIES ✓ Programming. ✓ Brain Training. ✓ Automating Everything. ✓ Cooking. ✓ Body Weight Training. ACHIEVEMENTS ✓ High-Achievers grant award from college. ✓ Completed 8+ professional courses on Udemy & LinkedIn. ✓ Developed & Deployed multiple SIS WM Extensions used by geospatial teams nationwide.
